To whom it may concern:

I'm writing this letter to strongly recommend Miss **Anabela Montel De La Roche**.  
As her supervisor in the Human Resource Department of *Consorzio Solidarietà Sociale Forlì-Cesena* (Forlì, Italy) I should say that her aptitude and diligence impressed me very much.

Anabela has been involved in our organisation in from 1/10/2015 to 31/05/2016 when she was involved as a "Regional Service Operator".

Being a local Development Agency -supporting a network of voluntary associations and social enterprises- we usually host trainees to help us in our regular activities but Anabela was undoubtedly one of the best.

We involved her in different actions mainly concerning the management of Italian and European volunteers (including selection, training and assessment) and the planning of multicultural events and initiatives in the local community and she always demonstrated a good work ethic and remarkable interpersonal skills. She also showed great interest in different cultures and used her knowledge and attitude to involve the young people she was working with and make them feel at ease.

She successfully completed all the assigned tasks and put extra hours-if necessary – in order to meet specific deadlines. In different occasions, I also teamed her up with other trainees to work on a project and she always proved to be reliable and showed excellent competences as a group leader.

Anabela is bright, energetic, kind-hearted and genuinely well rounded. She was really liked and respected by both her colleagues and our clients who particularly appreciated her social and intercultural competences, her sense of initiative and contagious enthusiasm.

Therefore, I wholeheartedly recommend her and wish her the very best in all future endeavours.

Sincerely,
